PROJECT SETUP/ TEARDOWN and PUMP WATCH

Heartland Pump Rental & Sales, Inc. is the complete one stop for all of your pump rental needs. To help our customers with their pumping projects, we have available certified field technicians, and factory trained mechanics to help you with your project from start to finish.

From having certified HDPE fusion technicians, along with setup equipment — including: fusion machines, Bobcats, Skytracks, etc. — we have everything you need to setup your pumping project.

Once it is setup, we offer 24 hour pump watch to maintain and provide pumping support throughout the duration of your project.

At the completion of your project, we will teardown all aspects of the pumping system, and work to return the area to your specifications.

For pricing or engineering assistance with your pumping project, please call 888-272-7143 and we will direct you to the sales representative in your area. Remember at Heartland Pump — WE'VE GOT YOU COVERED!
