

HEARTLAND PUMP RENTAL & SALES, INC.

DISTRIBUTOR OF GODWIN DRI-PRIME PUMPS

888-272-7143

ROAD RAMPS and FUEL TANKS

Heartland Pump Rental & Sales, Inc. is a company that specializes in sewer bypass pumping. Through the years, we have added equipment and accessories that aid us in completing each of our projects. To this end, we have fabricated and have in our rental fleet — varying sizes of road ramps. Whether it is just a simple one pump bypass to a large project setup — by using our road ramps, you can offer to your customer a solution that not only gets their bypass project pumping, it also keeps their traffic moving.

The road ramps are easily set-up, and have the capability of being stacked for easy transportation. Keep in mind, that not only are these in our rental fleet, but our fabrication shop can modify and build a road ramp for any application.

In conjunction with the road ramps, Heartland Pump has numerous fuel tanks to help you keep your sewer bypass running. By adding a 550 gallon fuel tank to your pump, you are assured that you will not have a fuel emergency at an inopportune time.

For any pricing — sale or rental — please call 888-272-7143 and we will direct you to the sales representative in your area. Remember at Heartland Pump — WE'VE GOT YOU COVERED!
