

HEARTLAND PUMP RENTAL & SALES, INC.

DISTRIBUTOR OF GODWIN DRI-PRIME PUMPS

888-272-7143

TURBINE PUMP INSTALLATION/ REMOVAL

Heartland Pump Rental & Sales, Inc. considers themselves a solution company — not just a rental or sale company. In this vein, after our success with the sale of multiple turbine pumps, we have added equipment and personnel that cannot only engineer and sell you a turbine pump, but has the capabilities of removing, repairing and installing your turbine pump, thus offering a complete solution to your turbine pumps needs.

We have a team of qualified turbine pump mechanics that have worked with turbine pumps for over 15 years. Each member is fully safety trained with OSHA and MSHA surface and underground training.

We have equipped them with specialized tools and service trucks, to be responsive to any turbine project.

Although our company represents American Marsh Pumps and American Turbine Pumps, we do not limit ourselves to just those pump brands for repairs. If you have a turbine project, or a turbine pump that you need analyzed for repair, give us a call.

Please call 888-272-7143 and we will direct you to the sales representative in your area. Remember at Heartland Pump — **WE'VE GOT YOU COVERED!**
